Hello Matthew,

The U.S. EPA has received both sets of your formal responses to the multimedia Information Request, by the staggered dates we negotiated. Thank you for the timely submissions. U.S. EPA is currently in the process of reviewing the documents you submitted, together with a review of the inspection reports to date. We are evaluating what enforcement measures may be necessary with respect to the facility and although we are working as quickly as possible, we do not have a firm date at this time by which we will be getting back to the facility.

Subject: Super Salvage Response to Information Request

Hi Richard,

I am writing you this email on behalf of Super Salvage, Inc for who we (Compliance Plus Services) recently submitted formal written responses to the Information Request they received following EPA's multimedia inspection of their Washington DC facility on May 28 and 29. I just wanted to confirm that you received both sets of responses, the first set for questions 1-3 submitted on September 25, 2013 and the second set for questions 4-28 submitted on October 16, 2013 and see if you had any further questions or needed any additional information. Also I was hoping to find out what the next steps in the process are, along with the timeframes in which they will happen. If you could let me know, I would greatly appreciate it.

Thanks,

Matthew Lapp
